

**Outstanding Volunteer Award**

(1) Writing at least 200 words article; OR

(2) Draw an A4/A3 size picture, with at least 50 words description

Volunteer is a volunteer programme. We do a lot of volunteer to serve our community. We help elderly and mentally handicapped. We made up this group so that we can help those in need. It can not just make them happy but we can be happy. Our target was to help elderly and mentally handicapped. I recommend we need to do volunteer work to help the elderly and the mentally handicapped. So that they won't feel alone. They will think that there also some people is caring for them. They will feel happy about it.

In the volunteer, we visit the elderly and the mentally handicapped. When we arrived there, we were nervous but later on it was fine. First, we played some games with them. Then, we have ~~the~~ performance such as magic show. Next, they share their feeling with us. After that, we gave them caring cards and some souvenir. At last, we took a group and say goodbye to them. It was a wonderful time with them.

In the volunteer, I learnt that even they ~~are~~ are looking like children but they are kind, helpful and know how to respect the people. We also need to treat them as equal as us.
