I target the elderly people in Hongkong  
Some elderly people were poor and need to search -  
Food or useful things in the rubbish bins.  
Some of them were sick and so we want to give -  
them some love and care.

first I went to visit an elderly centre in San Po  
kong. The centre was quite big and the service was  
quite good. There were staff and nurses to take care  
of the elderly.

But as they were old and sick, they could not  
go out by themselves. They can only go out if their  
family comes to take them out. Everyday they just -  
watch TV and chat with other elderly in the centre.  
They maybe very bored and lonely.

They feel no one likes them.

Then my heart was moved to come and entertain  
them. I did dance, Indonesian songs, mandarin  
songs, share Indonesian dessert and chat with  
them.

I see them so happy because they sing along too.
